Convert to LED Lighting

When compared to traditional incandescent and fluorescent lighting, LEDs produce the same amount of lighting with less energy and far more efficiency. By controlling CO2 emissions and lowering energy consumption, LEDs are used as a measure against such things as high electric utility expenses and global warming. Furthermore, LED bulbs last longer, so they do not need to be replaced often. This results in less garbage.

With these benefits, why not try LED lighting for yourself? It will bring us one step closer to energy efficiency and also limit greenhouse gases.

Be Aware of Your Alcohol Consumption

お酒と上手に付き合しましょう

As the year closes and a new one begins, year-end parties, family gatherings and other celebrations will increase. This is the season where there are many occasions for rich foods, and therefore, many opportunities for increased alcohol consumption. Seasonal, rich cooking, with high salt content, may increase thirst and lead to more people drinking larger amounts of alcohol than usual. Pay attention to how much alcohol you consume and consider ways to prevent excessive amounts when drinking. With regular health checks, and refraining from drinking at least two times a week, you can maintain a healthy relationship with alcohol.

Ideas for Excessive Alcohol Prevention

- Decide your drinking amount and time beforehand
- Drink slowly while eating
- Cut whiskey and Japanese spirits with warm water
- Use a small glass
- Drink water along with your alcoholic beverages

A Place Where We Can Enjoy Living – Follow The Rules

ルールを守って気持ち良く暮らせる町へ

Stop! Clean up after your dogs and don't litter!

During the winter season, there are people who don't pick up after their dogs and leave trash such as empty cans buried in the snow. When the snow melts, the people who live in the areas where this waste was buried are greatly inconvenienced. This is also prohibited by City Regulations, these actions must cease.

Caution When Disposing of Garbage

On the mornings when throwing out food waste, take care not to attract crows, cats, and other animals to prevent a mess. Ensure your trash is properly disposed of.
